# What's your part in the recycling process?

by Janice Pinke
Madoc's Reeve Tom Deline
says that in one years time the
residents of Madoc Village will
probably have 'blue boxes' in
their homes and they will be
asked to separate their

The non-recyclable garbage will most likely remain in the already existing dump sites. All across Canada, cities, villages and townships are

looking at the possibility of recycling their garbage. Recy-cling appears to be the only resolution for our now, near

capacity, dump sites.
Tom Deline, Vice-Chairman
of the Waste Management
Steering Committee says it is "safe to say that everybody wants recycling". Eventually all homes will house 'blue boxes' and homeowners will be asked to separate their waste into such categories as cans, plastics, newspaper and cardboard.

#### **OUR RECYCLING** PROCESS

The recycling process currently waiting for approval from the 14 municipalities, would involve our waste being collected and separated here. Once separated it would these sent elsewhere for processing, and then sold. Profits, if any, accumulated from the sale of our garbage would be returned to the municipalities.

More likely than not, any profits will go towards the continuing recycling process.

This process has already been approved by the Waste Management Steering Management Ste Committee who have holding regular meetings at

the municipal offices Huntingdon Township on Hwy. 62, Ivanhoe.

If all 14 municipalities approve the abovenoted recycling process then we could be separating our waste within the year says Reeve Deline.

### Hope Thursday is cloudy!

by Janice Pinke

by Janice Pinke
This Thursday, February
2nd, is Ground Hog Day.
A spokesman at the Ministry
of Natural Resources, Tweed,
says that the myth surrounding Ground Hog Day is just
that: a myth.
Referring to it as "an oldrives tale", they do acknowledge it however saying that if
on Ground Hog Day the hog
does not see his shadow he
comes out figuring it's going to

be Spring shortly.

If he does see his shadow he returns to his home in the ground for another 6 weeks

foreseeing at least 6 more weeks of Winter. May February 2nd be a cloudy one!

### And the number is. .

In order to better accomo-date the residents of Madoc Village, council approved and now has instituted a second now has instituted a second telephone line at the village's

municipal office on St. Lawrence West. With the change comes new numbers. They are 473-5211 or

Congrats on your newspaper—it has been a long time since I looked forward to reading the local.' These days the C.P. goes directly to the firebox!

The only flaw I see is this 'as a mother of three school age jocks, I am as disappointed as they when they tear open the paper looking for scores or coverage of their events and there is nothing!

What about those memories, those scrapbooks, the letters to

those scrapbooks, the letters to distant relatives that used to

contain proud clippings? But most of all - where is the recognition of their efforts - big or small - shouldn't they be newsworthy? I believe so.

### Feed the deer in Millbridge

#### by Janice Pinke

Claude Davidson has been feeding wild deer from his backyard in Millbridge for the last 5 years.

Like many other Millbridge residents feeding the deer has become an annual tradition.

Claude hangs protective hard hats from trees in his backyard and fills them with feed daily.

This week the fish and wildlife division of the Ministry of Natural Resources will begin supplying supplementary feed to those deer. It's a provincial program funded by the government and

funded by the government and run annually.
You don't have to be gifted to see the deer in Millbridge. A leisurely drive any afternoon around 4 p.m. will give you the gift of sight. Don't forget your

ANGELO'S OF MADOC

> this day lovers and hopeful lovers exchange gifts and

lovers exchange gifts and cards.

In the spirit of romance, next week, just in time for Valentine's Day, students at CHSS can have their message for their lover or hopeful published here in the Madoc Review via myself. Anonymous notes are the most fun; failing that use your own name. Leave your message, when arriving at school

EXAMS!

At the end of each semester at CHSS, (there are two semes-ters) students must bear down for final exams. Last week's for final exams. Last week's ice storm postponed these exams until Friday which had been originally scheduled for Thursday. Mrs. Priest, Vice-Principal of CHSS and coordinator of the exam schedule says the school prides itself on the staffistudent relationships. She says those students who are not comfortable with writing their exam in such a big are not comfortable with writing their exam in such a big area (the gym) are identified beforehand and suitable accomodation is arranged. This year for the first time, the exam schedule was arranged so that most students would have a day in between each exam in which to study. Good luck to all!

WEDNESDAY and THURS-DAY mornings only in home-room 227. Address them ATTN: Tristan.

Everyone is aware that Valentine's Day got it's name from the patron saint St. Valentine. Something that not everyone knows is that Valentine's Day is thought to have originated from an ancient Roman feast. At the feast: Homan reast. At the least young Roman men and woman drew partners for the whole year by way of a lottery. This was held February 15th. The feast was moved to the 14th in association with two saints by the name of Valentine.

February 14th is also the day legend states that birds choose their mates.

# The Marmora Cup

Prizes aside, the Canadian Long Distance Sled Dog Championship will be worth winning for the Marmora Cup alone.

The cup is both aesthetically pleasing and rich in local history, and was donated by June and Doug Vilneff of the Gift Shoppe and designed and constructed by Joe McCauley, shop teacher at the Marmora Senior School.

The cup is mounted on a piece of polished iron ore which had been used as weight at Tri County Printing since no one knows when - certainly when it was still the Marmora Herald Printing and Publishing. Mr. Don Kerr, formerly of Centre Hastings Secondary School, polished the stone. The base is constructed of oak from the old pulpit at Sacred Heart Church; the pulpit was originally constructed by Mr. Stanis Bertrand, grandfather of Pat Bertrand of Marmora. Father Carty of Sacred Heart donated the wood. "This cup is so much Marmora, it's a story in itself", the organizers say, and it's a statement that is hard to argue with.

### COMMITTEE AND MERCHANTS NUMBER ONE

Well the sled dog races in Marmora have ten years behind them and the races have been getting bigger and better every year.

For the organzers, this is an important milestone. Eleven years ago it may have seemed difficult to get everything organized, sponsors, helpers, marshalls, and of course, racers. But the Marmora cup and the Canadian Long Distance Sled Dog Championship are now well established, an event that serious racers seeking good competition with in a well-organized event now! wise

established, an event that serious racers seeming you competitor that that event won't miss.

The organizers have worked long and hard to make this event what it has become over the past ten years. They deserve credit for hanging in there when such things as the weather have conspired against them. In ten years only two races have ever been cancelled and that was due to an almost total lack of snow. That too is an impressive record.

Many of those early organizers are still involved, working as hard as ever. They've gained experience but many of the little things that can be so aggravating never change. For the efforts of these people, Marmora indeed owes a debt of gratitude. For the ten years of memories, exciting races, festivities and fun, we say thank you and good luck in your second decade.

But it would not have been possible without the support of merchants and companies who donate money, prizes and gifts to help make our annual sled dog races a success. Without this support, the job of the sled dog committee would be much tougher. Year after year, these people have donated whatever they could to make the races in Marmora bigger and better than the year before. We are sure the committee and the racers would like to take this opportunity to thank those loyel supporters who have been the foundation of the Marmora sled dog tradition.

And finally, there are the racers and their dogs, the true heroes of ten years of racing. Without your heart and desire, these races would not have the reputation they do. You have made our races a success, you have made the efforts of the organizers worthwhile. You have run the trails in good weather and bad, never asking for special treatment but accepting what Mother Nature threw at you. You have been the backbone of our races, and for that we thank you and wish you another year of good racing in Marmora. In return, we promise to welcome you with open arms to a celebration that we hope you enjoy as much as we do.

Good luck and good racing.

#### The first Marmora Cup race

The first race for the Marmora Cup, the unique trophy going to the winner of the Canadian Long Distance Championship run each year in Marmora, Ontario, Canada, was run in 1979 with seven mushers competing. The story of that first competion was the race between favorite John Patten from Minnesota and local favorite Don McEwen. Patten had nothing but respect for McEwen at the finish line as McEwen tried to run the legs off all competition to win. legs off all competition to win

the race.
But it was not to be Patten, a
master stratigist, crossed the
finish line in that frst race in 21
hours, 50 minutes and 30
seconds to win the Marmora
Cup for the first time.
McEwen, who gave it his all to
the delight of the local fans,
placed second in 23 hours, 50
minutes and 13 seconds.

#### 1980 - The year the weatherman didn't co-operate

1980 was the year the weatherman failed the sled dog committee. There just wasn't enough snow to hold the event and an eleventh hour cancella-tion had to take place - the one and only year this race has failed to start.

#### 1981 - the year of Don McEwen

1981 was the year of Don McEwen, who proved he had learned a little bit about strategy himself in that first year or racing. That year, McEwen set the standard that was to survive until 1985, when the Minniesota

until 1985, when the Minniesota mushers arrived in force. On a very fast course, McEwen delighted everybody by crossing the finish line in 20 hours and 51 minutes, defeating Ken Sherwood of New York by exactly one hour. Vern Rivett of Owen Sound finished third.

### 1982 - Ron Lecuyer wins despite

tough course and bad-weather

Don McEwen didn't enter the 1982 race, but his dogs still crossed the finish line first. McEwen's handler, Ron Lecuyer, entered the race with McEwen's team and, on a slow McEwen's team and, on a slow course in bad weather, Lecuy-er finished the race first after 29 hours, and one minute - 27 minutes shead of second place finisher Gerald McEwen of Michigan, who finished in 29 hours and 28 minutes. Les Lamparski of Michigan placed third that tear.

third that year.
That race was one of the toughest, as indicated by the

1983 - Patten back with a

#### vengeance

1983 marked the return of John Patten, who became the first musher to win the Marmo-

ra Cup twice.

He completed the 150-mile race in 1983, which saw warmer than normal temperavarmer than normal tempera-tures result in mediocre times, in 21 hours, 57 minutes and 35 seconds. Kevin Turnbough, also of Minnesota, placed second that year with a time of 22 hours, 56 minutes and 48 seconds. Local favorite Don McEwen placed back in the

#### 1984 - McEwen comes close again

Don McEwen was again taking a run at first place in 1984, but Bob Bright crossed the line just less than one hour ahead of McEwen to win his first Marmora Cup.

Bright, of new York, finished 22 hours and 18 minutes after he started the tough 150-mile course, with mcEwen coming in at 23 hours and 13 minutes. Tom Soper became the first musher to place third twice in Marmora cup races.

#### 1985 the year of Minnesota -

and the record

But 1985 was the year of Minnesota, as all three first places were won by Minnesota

teams, and each broke the former record held by Don McEwen from the 1981 race.
Al Jorgenson of Minnesota blew the former record off of the frozen trail and amazed spectators by coming in in just 17 hours and 50 minutes. Peter Sapin, also of Minnesota, made it the closest finish ever as he came in just over 13 minutes later. David Olesen arrived at the finish just three second behind Sapin. Imagine that, three mushers and their dogs running 150 miles and finishing just over 13 minutes apart. Now that's sled dog racing!

Jorgenson then shocked spectators at the trophy presentations by saying he thought the course could be run faster. We're still toaiting for him to come back and prove that statement though. (Do you suppose he is crossing a team of huskies with moose?)

#### 1986 and the Lieutenant Governor starts the sled dog races

In 1986, the big story wasn't the start but who did the starting. Ontario's Lieutenant Governor, the Honorable Lincoln Alexander, was on hand to start the races and even took a ride in a sled. He loved it, saying he would come back, even if he wasn't asked. When the racing actually got under way, two important

under way, two important stories emerged. Bob Bright

won his second Marmora Cup and Bob Allen, a local man in his first Marmora Cup race, placed a close second after having every kind of weather imaginable thrown at him on

the course.

Bright finished the race in 22 hours, 50 minutes and 44 seconds while Allen came in with a time of 23 hours, five minutes and seven seconds. Ian McKenzie of Bruce Mines elected third.

### 1987 YEAR OF BIG CHANGE IN THE WEATHER

The race two years ago could be called the year of the big change - in the weather. One of the mildest starts in the history the mildest starts in the history of the race made it very comfortable for the spectators although very hot for the racers and their dogs once they got on the course. By the time the race was finishing on Sunday, a major winter snowstorm had set in causing near white-out conditions. Five racers were called of the trail due to poor visibility.

1988 THE YEAR OF NO

The weather was the culprit again this year. It was just too warm for the long distance teams to get into shape for the

#### TIMBER MANAGEMENT PLAN - TWEED CROWN MANAGEMENT UNIT

The Tweed District of the Ministry of Natural Resources is about to update the Timber Management Plan for the Tweed Crown Management Unit. The management plan will outline all potential areas for harvest, renewal and maintenance for a twenty year period from 1990 to 2010, and specific areas for these operations during the first five years. At the end of each five year operating period the plan will be updated and a new plan prepared for the following twenty year period. The plan will also identify the location of planned access roads and methods of addressing any identified concerns of other forest users. The planning process will start January 30, 1989 and will be completed by March 31, 1990.

You are invited to participate in the preparation of this plan by submitting your comments either verbally or in writing, to the District Manager, Ministry of Natural Resources, Postal Bag 70, 23 Spring Street, Tweed, Ontario, K0K 3J0 by March

Please identify areas which contain resource features, land uses or values that may be affected by timber management operations; and specific issues or concerns which you feel should be addressed; or any background information you have on the management unit.

The public will have four opportunities to comment on the plan during the next 14 months.

about it. talking to other people who have tinnitus, will all about it, talking to other people who have tinnitus, will all lessen the stress. Also, learn-ing to get a good night's sleep in spite of the constant noise will set you up with added energy for the next day's battle.

Loud noise can cause tinni-tus, and I'm wondering how many million more people will experience this thanks to this age of ghetto blasters and head sets. Avoiding loud noises if you have tinnitus, is a must. Even vaccuuming the carpets can make it worse. Wearing ear muffs or ear plugs when near loud noise can protect you from added insult.

There is a device called a masker, which can be worn in some cases, and cover noise. This masking device can be accompanied by a hearing aid so that you pick up the sounds you want to hear and lessen the

you want to hear and lessen the ones you don't want. Tinnitus is a medical symptom. It isn't all in your mind. A hearing specialist can work with you to lessen your problem and some people have also found relief through dental specialists working with TMJ Syndrome TEMPOROMAN-DIBULAR JÖINT, problems involving your jaw bones and muscles. TMJ can masquerade as acute or chronic

diseases of the ear, nose and throat, so it is wise to explore all avenues when tinnitus becomes a stressful part of your life

your life.

Helpful information, pamphlets and newsletters may be had by writing the American Tinnitus Association, P.O. Box 5, Portland, Oregon, 97207, U.S.A.

People who experience Meniere's Disease can not only have tinnitus, but will eventually experience profound deafness. Just as tinnitus isn't life-threatening, neither is life-threatening, neither is Meniere's, but it can be a most stressful disorder to live with. Along with the continual noise associated with tinnitus, you can experience extreme bouts of vertigo or dizziness. Some alos experience disorientation, distortion of environmental sounds and headaches. Even sounds and neadacties. Even bright lights can be a problem for some. These symptoms can leave people afraid to drive to work, and unable even to bend over to get a pot from a lower cupboard. Nausea is also part

over to get a pot from a lower cupboard. Nausea is also part of it for some people.

The cause, cure and treatment of Meniere's is vague. According to Dr. Hugh Barber, professor of totalaryngology and the head of the Dizziness Clinic at Sunnybrook Medical Centre in Toronto, Meniere's is not just a disease of the ear canal, but one of the inner ear, where it fills with fluids, extending the sac and causing the dizziness, vertigo, nausea and deafness. The sac acts like a cleaninh mechanism, and any breakdown in the sac's working abitily dams up the fluid in the inner ear and is considered the reason for cell or nerve damage. Even this theory isn't fully understood, but pressure in the inner ear is the universal theory that is accepted. the universal theory that is accepted.

accepted.

Dizziness can be caused by other problems not associated with the ear, so your familt doctor, should be the first person you see if you experience incapacitating spells.

Information on Meniere's can be had by writing the American Tinnitus Association and self-help groups are forming in Ontario.

Your local office of the Cana-

dian Hearing Society can also help. You can write to the C.H.S. at 271 Spadina Road; Toronto, M5R 2V3, or call (416) 964-9595 in Toronto.

# YOUR BUSINESS

# Hiring people requires good planning

A major concern for most small business owners in Ontario is that potential mine-field known as human

resources.

Managing people is one of the single most important aspects of running any business successfully, and it's frequently one of the last areas frequently one of the last areas to get any ttention. In many cases, the entrepreneur may be the worst type of person to be in charge of hiring, managing and training people. Like bookkeeping and accounting, hiring people may be one of those tasks that should be delegated if the owner feels that it is one of his or her weaknesses. He or she can also attend one of the many conferences and workshops that are

ences and workshops that are offered in this discipline. From a 10 person logging operation to a software company in Ottawa, or a tren-dy delicatessen in Markham, the basic steps in defining a job are more or less the same.

are more or less the same.
Ross Findlay, executive
director of the Personnel Association of Ontario says. "A well
thought out program for finding, recruiting, training and
managing people will help a
small business be more
productive. Competition for
good employees now is very
fierce, including the search for
recentionists, and secretaries. receptionists and secretaries. It helps to plan in advance to have a pay and benefits policy that will both attract and hold on to staff.

n, Mr. Wilkins, is a real go-getter,

Personnel consultants identify the following key steps in developing a human resources system:

Determine your labour needs The position, usually by

position, usually by advertising,
\* Be sure you know what you are looking for. Be clear about the job to be done and make sure you are able to describe it precisely. Select the candidate who best fits the job description description.

\* Training and orientation should help new employees to adapt to the norms of your company, and learn your specific values, \* Pay scales and benefit pack-

Pay scales and benefit packages are usually set by the local market conditions, and can be determined by simply asking other people in the same industry, Finally, managing people is dynamic process. It's always changing. It should not be thought about once a year, but rather should be subject to some regular attention and study.

SNOWMOBILE SAFETY GUIDELINES

The fun of snowmobiling can be destroyed instantly by accibe destroyed instantly by accident. carelessness or ignorance. As we cruise along,
enjoying the scenery and the
thrill of the ride, it is all too
easy to forget that we are
miles from the nearest house,
and that all that stands
between us and serious, if not
fatal, problems is our own
forethought, ingenuity and
caution.

I learned how to snowmobile like most others - by trial and error, observation, advice error, observation, advice from friends and some hard knocks. There is no school that I know of that teaches snowmobiling, nor are there any special tests to pass or licenses to obtain.

You just buy a machine (usually too large and too powerful) and go. And every year some of us are killed, others injured and many more find ourselves in precarious find ourselves in precarious situations that we emerge from unscathed only by luck, fate or blind faith.

I ride about 2500 km per

season with both experienced and inexperienced riders. and inexperienced riders. From this, I have developed certain rules of the trail and emergency ideas that have worked for me. Each year, I add new ideas as situations arise, and the process of safer snowmobiling carries on. What follows is a summary of how I repearer myself to ride and prepare myself to ride and what I suggest others should

try. Compared nothing, it sounds like a lot to carry and do, but the work is in the preparation; once every-thing is in place, it is an easy matter to be ready for your next - safer - run.

1. SAFETY & EMERGENCY GEAR FOR TRAIL RIDES

Personal:
The following gear should be carried by each individual on

his/her person on any trail ride regardless of the planned dura-tion of the run:

ID & Money - driver's licence, insurance informa-tion, trail permit, club membership card, credit card, at least \$10 cash plus four quarters for pay phones, any medical info: medical info

Extra Clothes - 1 pair of glove liners or work gloves (for extra warmth, or in case of Extra Clothes breakdown requiring work without mitts), hand towel (for wiping hands after work, cleaning off wet seat, cleaning

cleaning off wet seat, cleaning face mask, one pair extra socks, toque (if not worn underhelmet), face protector; Emergency - whistle, compass, trail maps, waterproof matches, small piece of fire starter stick, flashlight (if running at night), pen knife, chocolate bar or trail mix, two Hot Shots hand warmers, extra key for your machine. key for your machine.

Emergency Repair Kit
The following should be on each machine for every ride:
Tool Kit - screw driver, pliers, adjustable wrench, plug wrench and bar, electrical tape, siphon, wire, Hot Shot hand warmers, pry bar;
Spare Parts - plugs, belt, pull cord, and handle, brake/gascables, emergency kill switch cover.

# Stewart shines in Jr. all star game

By Jim Parcels

Kitchener - Former Norwood Home Hardware bantam defenceman. David Stewart, added yet another accolade to his young hockey resume last week as he was selected as Most Vahuable Player in the Midwestern Junior B all star game held in Kitchener

Midwesterh Junior and an agame held in Kitchener.
Stewart, a member of the defending OHA Jr. B champion Waterloo Siskins, picked up one assist and was outstanding on the blueline as his "White" squad earned a 3-3 tie with the "Blue" squad.

The White team was made up of the best from the Siskins. up of the best from the Siskins. Cambridge Winterhawks. Brantford Classics, Kitchener Dutchmen and the Guelph "B's." The Blue team was selected from the Stratford Cullitons, Owen Sound Greys, Elmira Sugar. Kings and the Listowel Cyclones.

The two teams were fied after one period of play on goals by Waterloo's Ryan Merritt and Listowel's Mike Kapanen Merritt, who is Stewart's roomate in Waterloo, is also a member of the Ontario under 17 team.

also a member of the Ontario under-17 team.

Before the ice had even frozen for the second period, Brantford's Brent, Gretzky (name sound familiar?) beat Stratford's Jeff Hill at 0:59 to give the White a 2-1 margin. Wiyth six minutes left in the widdle frame. Stewart sent in

Wight six minutes left in the middle frame. Stewart sent in Kitchener's Dave Woolridge all alone with a perfect pass. Woolridge made no mistake by beating Lostowel'ss Ron Bertrand high to the stick side giving the White a 3-1 lead.

The third period provided a little more excitement as the Blue team began to pressure the White in their own zone. With 5:06 to go in the contest, Stratford sharpshooter Rick Mullins picked up a loose puck and deposited it behind Guelph's Terry Handke to close the margin to 3-2. Less than a minute later, Stewart made the play of the

Stewart caught up to him and
knocked the puck away while
sliding on his stomach.

The Blue team did tie it up with only 2:12 remaining as Kapanen lifted a shot over Handke's shoulder from close in to make the final score 3-3. After the game Stewart looked at his performance as a form of redemption for himself.

"The game was great for me because it made up for the past couple of outings which I didn't play that well." he said.

Doing it against some of the best in the league was even

better."
Earlier in the week, the Siskins fell into second place behind the Stratford Cullitons after losing in the Festival Clty 6-1 in front of over 2,200 fans.

# LRTCA Challenge Cup race

The Lower Trent Region Conservation Authority's Family Ski Day will be held on Sunday, Feb. 12, 1989, at the Goodrich-Loomis Conservation Area.

Goodrich-Loomis Conservation Area.

The main event of the afternoon will be the annual Challenge Cup Cross-Country Ski
Race. For this race, the
LTRCA is sending out a challenge to all local municipalities
(councillors and/or staff),
neighboring Authorities,
watershed news media and the
Trent Severn Waterway.

The last time this race was
held (1987) the team from
Stirling skied away with the
coveted "Challenge Cup"
taking it away from the
LTRCA. We need you to form a
team for this year's race.
A team consists of two skiers
who's combined times determine the winners of this prestigious race. So, why not come
out and show off your skill and
good sportsmanship!

The events at Ski Day begin
at 1 p.m., with the Challenge
Cup Race scheduled to start at
2 p.m. The rules and information are listed below. Those
interested in entering the race
should please call Jon Boxall,
Community Relations Coordinator.
Of course, this day hinges on

ordinator.
Of course, this day hinges on the hope that we get some snow in the next few weeks.

Rules For LTRCA Challenge

Rules For LTRCA Challenge Race
1. Two-person team.
2. Open to all members of the press, local Conservation Authorities, member munici-palities, Trent Severn Water-way and interest groups on permission.
3 Start will be from the edge

in Europe. In neighbouring and foreign countries famous ground hogs have the astute pleasure of being "dragged out of their homes screaming" even though officials could plainly see and record the weather conditions and report their own predictions. Handley says we don't do that here.

Dave Handley has been forwarding his report on Madoc Mike to Belleville's radio station CJBQ since 1967.

# Seniors invited to freebee

Thursday, February 23rd, area seniors are invited a free luncheon being hosted by CHAMPS (Centre Hastings Area Meal Plan for Seniors). Sponsored by Madoc's Legion Branch 363 it will be held at Madoc's Kiwanis Centre begin ning at 12:30 p.m.

Kay Peacock, of the Community Resource Project, says it's the first year for the noontime event which is being

presented honouring the CHAMPS program.
The luncheon will feature a roast beef dinner followed by, according to Kay, some 'smashing desserts'. After the lunch their will be some surprise live entertainment. It's all free!

Anyone needing transporta-tion to the luncheon should feel free to call upon Bill Knight at 473-4454 or Joan Terry at

Doug Willett of Wisconsin, USA, finishes the Centre Hastings Sled Dog Challenge held this past Saturday in Eldorado. Six area residents formed a committee resulting in their own race after Marmora's sled dog races were cancelled last Wednesday. Doug finished fourth overall. # Get involved!

Cont'd from page 1 Cont d from page I at local fairs, carnivals and other community events, "it will give the kids something to identify to" says Micki. Donations, suggestions for a mascot and applicants should contact Micki at 473-4810.

SAFE ARRIVAL PROGRAM

Micki McLean also told the Review of a Safe Arrival Prog-ram instituted by concerned parents in Madoc Village whose children walk to and attend the Madoc Public

School.

It began at the beginning of January and what the program entails is recording the absenteeism of any child not showing up for school. When a child is determined absent their home is immediately contacted if that parent has not already contacted the school. All parents are urged to inform the school of any absenteeism.

The program will hopefully insure a childs safe arrival at school. Get involved now!

Attention Property Owners and Tenants in the Township of Huntingdon

# **Your Municipality is Being Reassessed**

In response to a request from your municipal council, all properties will be reassessed under the Section 63 Reassessment Program.

Under this Program, each property in a municipality is assigned to one of the following classes: residential, multi-residential, commercial, industrial, or farm. All of the properties within each class are assessed at the same proportion of their 1984 market value. This results in a fairer distribution of property taxes among the ratepayers in each class.

#### **Mailing of Notices** of Property Valuation

1988 Notices of Property Valua-tion will be mailed to all property owners and tenants.

The assessed value shown on your Notice will be used for the calculation of your 1989 municipal and school taxes.

A full explanation of the Section 63 Reassessment Pro-gram, the appeal procedures, and a timetable for Open Houses in your area can be found on the information insert which accom-panies your new Notice of Prop-erty Valuation.

#### **Ask Questions at Open Houses**

Open House information ses sions have been planned at con-venient times and locations in your municipality to give you the opportunity to review your assessment with staff of the Regional Assessment Office.

Assessment staff will be pleased to explain the basis of your property assessment and can correct any errors in the information shown on your

We encourage you to take advantage of this service.

#### Rolls Available For Review

The Assessment Roll will be available for review at your local municipal office during regular business hours, beginning March 8, 1989.

#### If You Wish To Appeal

If you believe you have been improperly assessed in any way, you may file a formal complaint with the Assessment Review Board. The final date for filing an appeal is March 28, 1989. Details of the appeal procedures are on your Notice of Property Valuation and on the information insert.

Early in the third, Jaimie McCann put the team into a one-goal lead. He was assisted by Wesley Cromwell and Clayton Curl. Then, with their second short-handed goal in as many games, Madoc found themselves in a two-goal lead. This was scored by Ian Richardson from Joe Kehoe and Clayton Curl.

This lead held up until 1:45 of the third, when Wellington scored their second. Madoc was serving a penalty at the time and Wellington pulled their goalie in favor, of an extra attacker. They managed to score the second goal, but could not find the equalizer.

Thus Madoc won the game 3-2 and the series 3-1. Now they move onto Colborne.

ATOMS SWEEP SERIES
The Madoc Atoms swept the series over Marmora three games straight, the third game being by a score of 11-3.
The scoring punch was provided by the line of Brian-Phillips, Jose McNeil and Sean Smith. Jose McNeil scored five times and added three assists for nine points. Sean Smith scored three times and assisted six for nine points. This was a repeat performance

### Winter kill

No snow, cold temperatures, and ice lying in the fields are ideal conditions for winter kill. Recently, our lack of much snow and our abundance of ice snow and our abundance of ice in the fields, may have caused us to become good candidates for winter kill. From what I understand of this phenomenon, the effects are disatrous. Because there is not enough snow to provide adequate insulation, any clover or fall growth that may be lying dormant for the winter, is susceptible to the smothering ice. Because of winter kill, by the spring, many fields may have spots with little or no growth. growth.

Jesus referred to our hearts as types of soils in the parable of the sower. In this parable, in Matthew 13, there were four conditions of the soil: the hard pressed path, the rocky places where the soil was shallow, the thorns, and the good, rich, fertile soil. There were also four results: the birds ate the seed, shallow soil left no four results: the birds ate the seed, shallow soil left no sustaining roots, thorns choked the plants, and the rich soil produced a bumper crop. Spiritually speaking, the four results were: the devil stole away, God's word from sinner's hearts, the believer fell away in times of trouble,

the worries of life and the deceitfulness of wealth choked the believer, and the believer in good soil reproduced himself many fold.

in good soil reproduced nimself many fold.

The conditions of our hearts can change from time to time. Because of this flux, we must keep the soil of our heart steadily worked. The devil would want to snatch away our seed, sow thorns in our lives, or influence us to have rocky hearts, so when trouble comes we will fall. Perhaps, he may even try to cause a little winter kill. Whether the devil would bring thorns or ice into our lives, they both produce the same effect, smothering. Smothering causes little or no growth in our spiritual lives.

My desire would be to produce a bumper crop for God. To achieve this goal I must steadily work the spiritual soil esil of row heart and allow

appear to narm tnese species.

Moose hunters were allowed to party hunt this year. The party-hunting system with the increasing number of moose in the District, attracted more hunters into the area. During the 1988 moose season, 50 to 55 moose were taken. This is an increase of 30% from the previous year. ous year.

ous year.

The deer harvest remained the same as last year, even though the weather was poor. The buck harvest increased from last year, but the doe harvest was down with the population remaining stable. Mild weather, during the deer hunt contributed to an increase in the bear harvest for this in the bear harvest for this time of year. In previous years, 1 to 3 bears were reported killed, and this year. 17 to 20 bears were harvested.

- How does what I eat relate to my chances of having a heart attack or stroke?
- If you eat fatty foods -- such as butter, whole milk, ice cream, cream cheeses -- or use saturated oil in cooking, your body is taking in too much fat. Eating these foods can lead to a build-up of fatty deposits in the arteries of your heart. Clogged arteries are the leading cause of heart attack and stroke.

# The Centre Hastings Sled Dog Challenge

by Janice Pinke
The Marmora sled dog races

were officially cancelled Wednesday.

By 9 p.m. Wednesday night six locals had banded together form their own race and they called it the Centre Hast-

ings Sled Dog Challenge.
Twenty-seven mushers entered the 52 mile race this past Saturday; 23 finished and 4 dropped out due to technical/animal difficulties.
The six member committee consisted of Don McEwen,

Doug and Linda Campbell, Bob and Jane Burrell and Al

Moorcroft.
At the awards ceremony
Sunday at the Madoc Township rec hall mushers offered their thanks to these 6 people. Musher Doug Willett, when

accepting his fourth place prize Sunday said "we're all prize Sunday said "we're all glad you people got together to give us something to run on". This was the overall feeling of all of the race's participants. Organizers raised a purse of \$2000 for the race which took

all mushers over 5 hours to

all musners over 5 nours to complete. Don McEwen, trail boss, says "everybody just wanted to race, the foreigners had come and they were here". Thus, the first annual Centre Hastings Sled Dog Races.

Feb Page 2.4. Wednesday, February 8, 19 Remo. Mancini, Ontario Minister responsible for Disab-led Persons, and Mavis Wilson, Ontario Minister for Senior Citizens Affairs, have Ontario Minister for Senior Citizens' Affairs, have announced grants of \$2.96 million to non-profit organizations. The Access Fund supports community groups which undertake projects to improve access for disabled persons and senior citizens.

Twenty-live non-profit

Twenty-two non-profit community organizations in Eastern Ontario received Access Funds worth \$441,396 This is the third set of grants non-profit

to be made from the \$15 million Access Fund since it was created in June of 1987.

Acess Fund grants make it possible for persons who are disabled and seniors to par4ticipate in many community activities from which they were previously excluded," said Mr. Mancini. "Some-times, all that means is an addition of an elevator, or an FM system for hearing impaired persons, so that seniors and disabled persons are included in municipal, club and church activities

\$2.9 million for

disabled persons and seniors

When disabled persons and senior citizens have access to community-based facilities, it means more social and recrea-tional options." Mrs. Wilson said. "This illustrates the Ontario government's strong

Ontario government's strong commitment to ensuring equality of opportunity for all people of this province."

Grants are provided for renovations to improve access for wheelchairs, alert systems for hearing impaired persons, and braille and other tactile features for the visually

impaired persons.

There are two more dead-lines for applications; April 1/89 and Oct. 1/89.

our furniture thus ended up a storage facility in Belleviland we ended up renting a tage. Our contractor was d enough to alott us \$1000 our inconvenience. The rage and moving fees cost 00 and the cottage rental an litional \$750. We thank the tractor for the \$1000 and the urred inconvenience.

#### REEMENT OF RCHASE AND SALE

the 'agreement' was pared and signed in the mpany of both us and them e contracting company). ce our real estate sales rep s good friends with the trractors she acted as agent I liason for all concerned ties named in the reement'

Although I don't know of any acknowledged 'agreement' for new homes (I have been told there is one however???), we have been told that our 'agree-ment' lacks some major points!

This was our third move in 23

years and the first move into a new home, with no neighbours, nothing but trees, and we were looking forward to it.

#### TREEEEESSS!

AFTER the 'agreement' was signed the contractor said that he would do us a "favour" by removing the unwanted cedar trees from our property. A date and time were arranged to meet to mark those unwanted trees with spray paint

#### Guess what?

He forgot the can of spray paint. We have since found out that our trees which he arranged to have removed were sold by him to a logging company. We never saw any of that money.

#### MORE!?!?

The horror story my family has endured since August in endless. Let's try point form:

- my mother is a "stupid old lady" and a "\*!\*!\*! nutcase" according to the builder of our still unfinished home

two notable contractors have - two notable contractors have basically reinstated the fact that the house is a mess: - roof shingles buckling and not the right size - vinyl siding all wrong, some has blown off

- thermostats attached to the

basement ceiling
- light switches that don't do

anything - visible cracks in drywall - broken closet doors and no closet doors

one coat of paint and no

paint

paint
- sump pump not hooked up
- the brush on the property
remained after the trees were
cleared. The 'clearing process'
not noted in the 'agreement'
resulted in the brush being
pushed to the sides of our
property, onto adjoining lots,
according to our contractor
"as a favour" (after considerable discussion between us and
them).

them).

Worth more than just point form is the fact that our front door (the only current means of enfering and exiting the house) is not right. When the thermostat dips into the minuses the front door will not open. I am 24 and I couldn't get it open so I had to CLIMB out the rear siding doors, (climb) the rear sliding doors (climb because of lack of a porch, veranda, stairs...anything), come around to the front and push while the person remain-ing inside pulled.

#### WATER!!!

We had, according to the contractor, "a little bit of water" come into our basement living area in December. We were told that it was because we didn't have eavestroughing which we would have to obtain at our expense. WE DID. Last week more water than ever before entered our basement Sixty percent of our basement. Sixty percent of our furniture remains in the basement because of the unfin-

basement because of the unfinished upstairs.

Besides the great job the Ontario New Home Warranty Program, is doing so far can anyone else assist us!?!?

## Moving to the Manor

Ruth and Eldon Pratt are looking forward to moving into Mill Creek Manor in March

After making the decision to move into the brand new Senior Citizens' apartments, they had their names on the list

early. This Warkworth couple visited the building recently, and are excited about what they saw, and the prospect of planning the decor of their rooms and arranging the furni ture. They are both impressed by the size of the rooms and the large window that give a neerful atmobright a sphere to the apartments.

Although the couple do not know at this time which apartment will be theirs, they took a good look around expressing

Some of the apartments have long attractive kitchen coun-

ters separating the rooms. "Just the place for one of my plants," said Ruth who is an

avid plant person. One special cactus she nurtured has been taken along with her and has thrived in the last three places she has lived. It looks as if it will have a place of honour in the new apartment. Ruth was also pleased with the large cupboards and all the drawers

The inside walls of the building are painted a basic grey-beige colour. Yje Teertstra, a Dutchman who has worked on fifteen Senior Citizen buildings since 1951. was overseeing some of the painting. Panels of vivid-coloured walls give a modern appearance and add a special gleam to each end of the corridors.

the corridors.
Visitors can be screened
through a "peep-hole" in the
door of each apartment. There
is also a place on the door for
the names of the occupants. There are plenty of electrical outlets," noted Eldon, who scrutinized the walls and the corners of the rooms and observed the wiring.

All the windows will have circles the corners of the rooms.

similar curtains, giving the outside a uniform appearance. 'It's government regula-tions," said one of the workers who was busily adjusting outcurtain rods. "The inside curtains will be the choice of course," he who was busily adjusting the tenants, of course,' explained.

Beige-coloured carpeting was being laid on the lower floor, and some of the refrigerators and stoves are already in

There are separate balconies on the upper floor and a large communal balcony at the rear of the building overlooking the Arena and the Fairgrounds. Walk-out patios, leading from the ground floor apartments enhance the appearance of the building. Residents have been told that the landscaping will be beautiful when Spring arrives to bring it alive, since the trees and grass are already in place

A walk down the corridors was taken. Ruth and Eldon took special note of the stairs, took special note of the state elevators and the general accessibility of the apart-ments. They particularly liked the curved driveway leading to the building. Ruth and Eldon were born and raised in the Northumber-

land region. They settled in Warkworth-during the last few years. They have a son, David, two daughters, Hazel and two daughters, Hazel and Linda, and five grandchildren. "The latest is Jordan," said Ruth. "I cal him Jordy. He is six months old and has two teeth," she added proudly. Ruth was a health care aid.

## Norwood Atom A's lose final when 'tie game' rule invoked

Keene - When the final buzzer sounded in the 'A' Final, the scoreboard read Millbrook 3 - Norwood 3. Because Millbrook had scored the last go-ahead goal, they were the 'A' Champs and Norwood the Runners-up.

The game was played at a fast pace. Ryan Sedgwick scored the first goal for Norwood at 9:57 of the first. Mike Baker drew the assist. Millbrook then scored two quick goals at 7:50 and 7:16 to take a 2-1 lead.

At 6:19 of the second period, Jon Quincan rifled a low shot from the point. Clayton Heffer-nan was jolly on the spot to tip it in. Millbrook came back at 5:28 to retire the lead to 3-2. Goalies Luke Campbell for Norwood and Brian Robinson for Millbrook made great stops

for Millbrook made great sup-at both ends.
At 6:04 of the third period, some nice stick handling by Clayton Heffernan and a beau-tiful pass to Ryan Sedgwick tied the score at 3-3. Norwood had to score to win. With only

seconds remaining. Norwood had two good opportunities but failed to cash in. Congratulations to Mill-prook. You have a very good

GAME 1: Norwood 4 - Brad-ford 1
This game was much closer than the final score indicates. Clayton Heffernan opened the scoring at 7:16 of the first with an assist from Ryan Sedgwick. Bradford tied it up at 8:43. It wasn't until 2:27 of the

second that Ryan Sedgwick restored Norwood's lead. Things were pretty tight until 6:31 of the third, when Mike Baker came out of the penalty box, took an outside pass from Ryan Sedgwick and scored a spectacular goal, circling the Bradford net before stuffing it in the near corner.

This goal broke the game open and at 5:38 Sedgwick closed the scoring with an assist to Baker and Heffernan.

Norwood played a good

checking game with Campbell thwarting the few chances Bradford got.

GAME 2: Norwood 2 - Sutton 1
This game was a real dandy.
The score at the end of the first
was 0-0. The score at the end of
the second was 0-0. It wasn't
until 9:40 of the third that Kirk
Verdoold finally got one by
Luke Campbell.
Shane Maddison went to
work, setting up Clayton
Heffernan at 7:46. The heroics
went to Clayton Heffernan who
scored the winner at 3:22.
Norwood played tight
defense the rest of the way
with goalie Campbell coming
up big in the dying seconds.

Afterthought:
Each of the Lakeway Atom
'A's received a trophy for their
efforts. There was a mix-up at
the engravers so the 'runnersup' actually got the bigger
trophies.
Thanks to Keene for a good
tournament. The competition
was great and the refereeing
first class.

Dave McNeil, and thanked and presented with an appropriate gift by program chairman Lion Bob Duggan.

Clubs represented were from Napanee, Trenton, Sharbot Lake, Warsaw, Havelock and Campbellford.

Carman Metcalfe announced the blue box recycling program, as suggested by the Lions Special Projects Committee. The suggestion, which was approved by the club, will see the club buy the blue boxes for the residents of Norwood, Asphodel and that portion of Dummer Township which uses the Asphodel garbage disposal site. This project is also subsidized by the Federal government.

A five-piece band, known as the Shylo band, provided music for dancing.

## \$60,000 needed to complete outdoor pool by summer

For the past 17 years Madoc and District has operated a very successful summer swim program for eight weeks to teach our children how to swim. The last few years has seen over 100 children enrolled each summer. This program has operated out of places like Deer Creek, Campkins and for the last few years (thanks to their graciousness) has oper-ated out of Mr. and Mrs. Harry Ashton's private pool.

This Saturday come out and support the "12th Annual Smith-Burnside Fishathon". It's a type of fishing derby says coorganizer John Burnside.

Last year an estimated 150 people entered the fishing contest.

To enter purchase a \$2 ticket from Madoc's Dairy or Khamp's Sports or Willeumen's Soss or the beer store, ther that all you have to do is

show up this coming Saturday.
The fishathon begins at noon and ends at 7 p.m. Prizes are awarded to those catching the largest pike and pickerel. Second and third prizes are also awarded for both of these categories.

and awarded to both of diese categories.

It's totally non-profit and this Saturday Nipper's Cove is where you will find John Burnside and Brian Smith, organizers of the annual derby.

The social and recreational aspect of the Madoc community suggests the need for a complete year round complex, heated and covered, however a committee is approaching the pool with practicality and believes we should crawl before we run.

Therefore, the Madoc and District Swimming Pool Committee has decided to build an outdoor pool for summer use. The pool will be located by the Madoc and District Recreation Centre at the fairgrounds. We will continue to offer our summer swim program and additional time and instruction will be offered for the general public, seniors, handicapped, service clubs, etc., on a user pay basis. The pool will be 40 ft. x 78 ft., with depths ranging from 2 ft.

# Russ Howard wins Labatts Light Tankard

Find Glen Howard looks over the shot by Steve McDermot.
McDermot who is the third for Fedosa's rink out of Brampton,
was unable to find the right weight and missed with this shot.

Lovell Lord, formerly of Trenton watches his rock blow off a guard, in play-down action last Friday. Lord is the third for the Mreklinger rink, who is also from Trenton.

Russ Howard gives the final orders to his last rock in a match against Ed Wernich. Howard who is known for his vocal style was unable to

scare this rock home, as he lost to the "Wrench" 7-5.

All the planning in the world did not help Ed Wernich and John Kawaja as they lost in the final end to Russ Howard, 8-5.

Steve McDermat puts a little body english on his last shot in the 10th end against Howard.

## **Hastings County** Social Services report

REPORT FROM TOM DELINE, CHAIRMAN HASTINGS CTY. SOCIAL SERVICES

HASTINGS CTY. SOCIAL SERVICES

Having reviewed the Social Service Department's financial operating report for the 1988 year, I am pleased to announce that the Department has arrived at year-end with a healthy \$1.7-million surplus. I am extremely pleased with the results of the past year and am confident that 1989 will prove to be equally as successful.

This success would not have been possible without the continued efforts of a hardworking staff and the coperation of the members of Hastings County—Council, Belleville and the City of Trenton Councils.

We have met a great many

ton Councils.

We have met a great many challenges throughout the past year and look forward with great enthusiasm to the challenges of 1989. As society changes, so must we in order to meet society's need. We must continue to be responsive to an aver-changing population while at the same time, ensuring that public funds are administered in a responsible manner. I believe we have accomplished this in 1988, and in doing so, set an example of

accomplished this in 1988, and in doing so, set an example of good government in motion. We believe, though, that there are a number of areas where we can improve service and operations: There are numerous instances where neonle, have been receiving people have been receiving General Welfare in excess of general Welfare in excess of six months due to poor health and family breakdown. This situation is unacceptable. Ordinarily these persons should be receiving long-term benefits from other programs and we intend to improve the process whereby they are transferred to those programs. It is a great injustice to the individual and society when a person is forced to remain on General Welfare for an extended length of time and I

am optimistic that the transfer process can be shortened significantly.

process can be shortened significantly.

Also, we intend to see to it that all possible barriers to employment are removed for our clients, by providing the necessary assistance required to get people back into the work force as quickly as possible. These initiatives will include enhanced counselling to clients as well as provision or allowances to offset any associated costs of re-entering the workforce.

Through the Department's Municipal Job Developer Program, a total of 463 individuals were placed in employment last year and I am optimistic that we will see a continuation of these excellent efforts in the coming year.

We will also, be improving programs in areas of special assistance which will assist the working poor and low income families to retain their independance from the system.

It is a great tragedy when an individual feels that they would be better off on public assistance instead of working due to a lack of adequate support services. It is our goal in 1989 to see that these services are enhanced and Having re-located the Department into new tempor-

maintained.

Having re-located the Department into new temporary accommodations in June of the past year, we are now in a position to more effectively carry out the Department's many programs.

We now look forward to the expansion of the County Administration Buildings which will incorporate the Department's needs into the overall plan.

All in all, we have made tremendous progress in the past year and I am confident that we will continue on the same path this year with renewed vitality in seeking innovative solutions to complex social problems.

Almost a year has passed since we've been together. I'm sorry our feelings changed so drastically and that we couldn't keep the relationship we had strong and firm. I've missed your loving smile and gentle eyes that sparkled when you laughed. It hurts me so to know that the same arms which use to hold me are now holding someone new and that you no longer look to me for comfort and advice. You hold a place in my heart that will never be filled with anything except the sweet memories of us. I'd just like to wish you a Happy Valentine's this year, and each year to come. changes are to be insti-tuted. This summer Crystal' Beach will loosen their reins with daily, weekly and season-al rates becoming available. Open all year round the resort will also offer a yearly membership.

A 20 year membership has been the format in past years and this will also not change. According to John Roy, if after a year or two in the park, a person decides to purchase a 20

year membership then the cost of those years already paid for will be deducted from the 20 year fee
John Roy has been taking
advantage of the Crystal
Beach resort facilities for the

last 15 years.

The park, best known for it's sandy beaches, also boasts an outdoor pool, a clubhouse and a fun barn where they hold regu-

lar dances.

As well, Crystal Beach, along with some of it's membership will rent out trailers to vacationers.

Since 1985 the resort has been registered with the 'Coast to Coast' organization.

Purchasing a membership at Crystal Beach (whether it be

for one year or 20 years) means that you are now entitled to stay in any park registered with Coast to Coast at a cost of \$1 per night.

Before Crystal Beach mode public their financial troubles last year, the park's membership was estimated at 730. John Roy says "they (John and Larry) owe alot to their devoted membership" Currently 500 people have retained their membership status at Crystal Beach.

During these long winter months weekly bingo games at the resort's clubhouse draw between 30 and 50 players and this year's New Year's Eve party attracted 130.

See ya at the beach!

See ya at the beach!

The map illustrates the locations of camping facilities, registered with the 'Coast to Coast' organization, across

Canada and the USA. Stay at one of these parks for \$1 per night when you obtain a membership at Crystal Beach. The gorgeous beaches and the 'park' have new owners.

#### Crawford 3 brilliant in Norwood win

Andrew Hamilton scored the

craning goal but Dwayne
Crauford won the game.
It was as simple as that, as
the Norwood Home Hardware
Bantams edged Ennismore 2-1
Sunday to win their best-of-five OMHA 'D' playoff two games

#### Norwood 2. Ennismore 1

Following the rugged pattern of the other matches. Norwood and Ennismore flew at each other with playoff abandon allowing very little room for forwards to manoeuvre in front of the nets and pouncing all over players attempting to start plays at centre ice

There was no scoring in the first period and Ennismore seemed unwilling or unable to capitalize on some pretty bad passing by Norwood. Andrew Hamilton had the best Norwood shot of the period at the ten minute mark but his extennel. attempt was foiled.
Crawford dashed an Ennis-

Crawford dashed an Ennis-more two-on-one with 3:16 left. Hamilton notched a classic winning goal with 2:03 left in the second period. Taking a feed from his goalie he rushed down the left wing, danced by one Ennismore defenceman, cut in on the goal and flipped the puck high into the ngt. An already pumped up Brethen Coliseum crowd let loose

Norwood spent a great deal Norwood spent a great deal of the third period sending men to the penalty box and Ennismore did everything but use a cannon to try and even the score. Crawford withstood wave after wave of scoring chances frustrating the visitors with nonchalance.

tors with nonchalance. It was textbook playoff goal-tending. And the fans loved it. Norwood extended its lead when Joe Radey and Mark Stewart teamed up with Radey doing the damage. With 1:22 left, Ennismore pulled their goalie (they already had a penalty advantage). Joe English finally broke Crawford's shutout taking a good faceoff pass from Dave McGillan and blasting one from the blue line.

mg one from the blue line.
With 52 seconds left, Hamilton was penalized for using a broken stick. Shortly after, broken stick. Snortly after. Crawford snagged a sure goal-with his glove. The pressure was extremely intense until the dying seconds when Mark Stewart secured the puck and took at for a ride down the.

Afterthought: The referees called 54 minutes in penalties - 34 to Norwood and 20 to Ennismore. It was a bruising game but a remarkable one to watch.

Duelling and dancing: Norwood bnatam player Jason Sanford tangles with an Ennismore defender during their OMHA 'D' playoff.

## YOUR BUSINESS

#### Good record keeping makes sense

When budding entrepreneurs are thinking about going on their 'own, their biggest concerns are probably financing, employees and trying to predict the demand for their product or service. Chances are. "Keeping the books" is the last thing they're thinking about.

But small business people can easily save themselves lots of grief down the road if they invest a few hours at the outset determining what records should be kept and learning how to keep them. Keeping simple, but accu-rate, financial records is more

rate, financial records is more than just another headache. They provide a constant monitor of how the business is doing, they make tax time less painful and, when interpreted properly, can tell the owner how to manage the business more profitably.

Small business consultants urge the owner/operator to get help with the books if he or she doesn't have the time, desire or ability to keep decent records. The task can be delegated to a suitable employee or another qualified person. A

another qualified person. A glance at the yellow pages will also provide a long list of professionals. In a small town, a local banker can also refer

the owner to an appropriate accountant or bookkeeper. Good records from a recog-nized local accountant will also make it easier to deal with the bank if financing becomes necessary.

The type of records that have to be kept will, obviously, vary from business to business. But the basics are constant. There are four general categories of records: daily entries, recurring entries, month end and year end.

As the name suggests, the As the name suggests, the daily records keep track of the cash coming in and going out on a daily basis. This includes purchases and slaes made on credit. Recurring entries are things like payroll, payments on fixed assets, bank nawments on fixed assets, Daily payments, insurance premiums, sales tax remit-tances, the owner's invest-ments in and withdrawals

from the business.

Monthly records include a summary of income and expenses, a list of bad debt and the amount of inventory on hand. At the end of the year, an income statement and a halance sheet should be balance sheet should be prepared, the total employee earnings must be added up, and the T4's compiled. And

when the company's booksare finished, the business person will be ready to file for person-

al income tax.

To take full advantage of this information at the end of the year, it is often useful to set aside some time to study the data and prepare a business plan for the upcoming year.

#### Gardening tips highlight horticultural meeting

by Madeline Simpson
The first meeting in 1989 for the Campbellford and District Horticultural Society took blace in Jenkin's Hall on February 6.
About 30 members and guests were welcomed by our new president, Lois Bennett.
During the business period, Lois reported on some of the Society's plans for 1989:
To give our support for a cleaner environment, foam cups will no longer be used to serve refreshments.

Mrs. Daley presented a design for a banner which our society plans to make and use. On it, she incorporated the flower officially approved by our Town Council - the Shasta

Basy.

Frances Lundhild, who is now in charge of the Archives Book, brought it for display, and perusal by the members. Lois mande a report on the growlight stand, which the Horticulturial Society bought for the citizens of Hillsdale Nursing Home. They were, pleased to receive it, and now have it stocked with a number of plants, which they tend with loving care. Lois plans to visit once a month, giving short wash, de-bug, fertilize and propogate, etc.

A short discussion took place re plans for Campbell Park flower beds. It was agreed to

use brighter flowers (annuals) for showy beds that can be seen from the bridge.

The president plans to present some useful garden inits at each meeting. She and Glenn have already started planting for their numerous flower beds. so she demonstrated their method.

loosetexture and holds moisture (Garden Treat)

Before planting seeds, read the instructions on the package. Some seeds are slow to germinate, some need darkness, or time in a freezer before planting, some need no soil cover and so on. Use a small piece of screen to sprinkle a light coating of soil on some seeds. Label each pot, and spray with water and "damp-off" which preyents fungus growth. Place the tray, where the bottom will receive some heat: e.g. on a coffee table over a register, or on a growlight stand. Place the clear plastic lid over the tray or etain moisture, and wait with patience. If seeds are to be kept dark till germination, a piece of dark plastic may be placed over the tray.

Dr. de Hahn brought gem squash, from South Africa. These small squash may be eaten raw when green, or cooked about 10 minutes in

boiling water when ripe, and eaten with salt and butter. Interested members collected

Interested members confected seeds to grow.

The members then divided into groups of six. With seed catalogues they went into a huddle to discuss gardening soil: plants - those with best yield, taste, able to withstand drought, etc. Judging from the steady hum of conversation, a load of information was being exchanged.

exchanged.
Glenn Bennett then called on each group for some input. Some flower and vegetable seeds mentioned for superior quality are listed:

Madoc's OPP detachment
has yet to determine whether
or not 3 people arrested here
last Wednesday on theft and
possession charges are the
same 3 people responsible for
thefts in the villages of Madoc thefts in the villages of Madoc and Tweed 4 months ago.

Last Wednesday at approxi-mately 3:30 p.m. two persons, 1 male and 1 female, entered the Madoc Video Store. While the Madoc Video Store. While the man talked to storeowner, Brad Ryan, it is alleged that the female stole the VCR slip-ping it into an apron she wore under her coat, then both left. Brad observed the VCR was missing and pursued the vehi-cle containing the persons from the store and a third male.

from the store and a third male

subject. Eastbound on hwy. 7 near

the eastern limits of the village Constable John Stone of the Madoc OPP detachment noticed the irradical driving by Brad. Assisting, the OPP officer pulled over both vehicles. Arrested for theft and possession charges under \$1000 Jan Ladowski, 40, Jan Jodlowski, 32, and Helina Jakubak, 36. All three are from Ottawa.

Ottawa.

These 3 are believed to part of a criminal movement known as the 'Gypsys'. This was determined because of their netermined because of their motives of operation, one of which is distracting the storeowners attention.

They were taken to the Quinte Detention Centre and later appeared in court where Heling received 20 days and Lore

### Belleville pulls out of steering committee

by Janice Pinke
Area municipalities joined last year forming a Waste Managèment Steering Committee which would study the problem of waste and our overflowing dumpsites.
Fourteen municipalities put representatives on the committee but last week Belleville pulled out of that committee and it's committment to

tee and it's committment to study and tackle the waste

Belleville's Mayor George Zegouras defended the decision saying that the city was still going to look at the different ways to recycle.

Belleville's retraction from the committee, whose purpose is also to look at different ways to recycle, meant a sudden shift into neutral regarding any committee proposals.

Madoc's Reeve Tom Deline, a, member of the steering

committee is again waiting for approval from the 13 munici-palities remaining on the committee.

Approval from all munici-palities would mean that they would join and do the the processing the themselves. Processing the waste would mean renting a building and utilizing some new and used

equipment.

After processing, which involves separating and packaging the waste, the recyclables will be sold to a manufacturer.

Profits from the sale of the waste will be returned to the ongoing recycling process says Reeve Deline.

## Letter to the Editor

Dear Editor.

As a former resident of Madoc and a present subscriber to the Madoc Review. I am writing to express my dissatisfaction over the continued lack of local coverage in the

Review
Llook forward to receiving he Madoc Review every week he community except by hone and over the Christmas phone and over the Christmas Holidays But to my disliking. I continually discover four or five pages of local media coverage and twenty other pages of irrefvent filler form communities such as Camp-bellford, Stirling, Warkworth,

I realize that it is difficult to btain sufficent news to fill a

weekly newspaper in a community as small as Madoc. But steps must be taken to rectify this problem. Either rectify this problem. Either turn the Review into a bi-weekly or eliminate the unnecessary tiper and provide the citizens of Madoc with a smaller weekly that would contain news that would only concern and interest the resi-dents of Madoc.

Yours sincerely

Tim Willemsen Sackville, New Brunswick

## Valentine's Day 1989 in the village of Madoc

by Janice Pinke
No, there were no knights in
shining armours riding around
horseback in Madoc this
Valentine's Day but I guess it's
all how you look at it or him.
Audrey's Flowers and
Sharon's Bouquets 'n Gifts in
Madoc village both report
substantial increases in sales
on Valentine's Day 1989.

The Trim & Tone Fitness
Centre says a number of men
surprised their sweethearts
with a package they were
offering. It included being
picked up at home and chauffered (courtesy Doug Hunter)
to Trim & Tone for an hour on
their machines. Cosmetic
Consultant Brenda Tucker
then applied her talents giving

90 percent increase in sales when comparing this Valen-tine's Day to any other day of the week. Sales are up over the week. Sales are up over last year says Audrey. Valen-tine's Day 1988 was a snowy

Sharon, owner of Sharon's Bouquets 'n Gifts, when

comparing Valentine's Day to any other day of the week says it's like "night and day". She says sales for Valentine's Day began last Saturday (Febru-ary 11th) and ended on

Both of Madoc's florists collaborated saying that roses sold singley are one of the day's best sellers.

## Bantams eliminated from OMHA play-off

by Isabella Shaw BANTAMS DROP SERIES

After winning the opening game in the series the Bantams went on to drop three in a row and the series 3-1 to Colborne. The Bantams held a 2-1 lead at the end of the first in the third game but then watched as Colborne scored six unanswered goal, to win the game 7-2, only two were

power plays. Only 15 seconds into the game Pat Graham scored on a pass from Brad Phillips to give Madoca lead that was to last for only seven seconds when Colborne scored the equalizer. Madoc's second goal came two minutes later from Charlie Brownson. Phillips also Brownson Phillips also assisted on this goal but from midway in the second until

games end it definitely proved to be Colborne's all the way as they put six unanswered goals on the board.

In game number four a determined team of Madoc boys took to the ice and played boys took to the ice and played as if they wanted the victory. However again it was to be denied as they dropped a 3-2 decision to Colborne. Clayfor Curl tied the score at 1 in the second period when he was set up by Brad Phillips and Ian Richardson and in the third it was Ian Richardson from Clayton Curl and Dave Hobson. As in past games number 9 for Colborne proved the difference Colborne proved the difference as he tallied three times. An interesting note is that Nica Clancy counted for 12 goals in the four games. One more than the madoc Bantams as a team

Madoc is eliminated from further O.M.H.A. play-off action. Over the year Brad Phillips lead the team in scoring with 31 goals and 28 assists. This included two hat tricks. He was followed by Joe Kehoe with 22 goals and 23 assists. Goals for the year were 132 with goals against at 123 for an average of 3.84 in 32 games

## Man arrested for crime he committed in 1969

On February 16, 1989, the Ontario Provincial Police laid charges of second degree murder in the 1969 death of Robert John Forrest of RR 1. Woodville. Ontario. and obtained warrants for the arrests of Leo Norton Hart. age 54, of Warkworth, Ontario, and Earl Howard Thomas, age 51, of Calgary, Alberta. Thomas is a former resident of the Lindsay area.

In February of 1987, a citizen approached Provincial Constables Robert Bowen and Al Lee

of the Coboconk Ontario Provincial Police Detachment rroyincial Police Detachment with information about the murder. Detective Inspector James McCormick of the Criminal Investigation Branch of the Ontario Proyincial Police was called into direct

the investigation.

During the next two years, the investigation was conducted by these officers in Ontario and Calgary.

Thomas was arrested in Calgary by members of the Calgary City Police and will be

### Mother and three children left homeless after fire

There is both good news and bad news regarding the trust fund established in support of Vicky Baker and her three children after her trailer park home was destroyed by fire

children after her trailer park home was destroyed by fire last week.

First the bad news. As a result of some confusion created by the article in the Citizen last week, only a very small amount of money has been donated to the fund. If you want to make a donation please contact either Mr and Mrs A. Lavigne of 69, George St. East in Havelock at 778-or visit the Toronto-Dominion Bank in Havelock. The trust fund needs your support.

Indepedent of the trust fund, however, it should be noted that both the Peterborough City-County Disaster Trust Fund and the Salvation Army both came to Mrs. Baker's aid shortly after the fire took place.

shortly after the fire took place. The Salvation Army was especially helpful in providing clothing for the Baker children, while the Peterborough City-County Disaster Trust Fund provided Mrs. Baker with financial assistance and supplied the family with kits containing a number of useful items.

Both of these organizations are to be congratulated for their prompt and effective work in this and similar cases, as are those friends, neighbours and families who have supported Mrs. Baker and her children.

## Letter to the Editor

Dear Editor:
As I sat in my lounge chair and read your article on they saw us comin, oh how it brought back so many

memories.

Back in 1969, my wife, myself and small family, along with my mother, had a new large home built. It was to accommodate three kids, one mother and my wife and myself. It looked so nice, most of the home was finished and things seemed to fit; unlike your home, ours was finished. It was after we moved in that our headaches started.

We moved in the end of July

We moved in the end of July 1969. The winter of 69-70, our pipes froze, our heating was faulty, our doors all leaked and the basement was wet, the floors all creaked, the windows leaked also. They never insulated the ceiling, the roof had nail holes where the shingles had missed nails.

after 10 years of repairs, the town we live just outside of decided to drill a well outside my proper-ty line. This, in turn, stole my water and the fight was on. So guess who lost? I did, and so, one house with 10 wares one house with 10 years of love and care blood sweat, sold and we moved on.

we moved on.
Well, Janice. I know how you
feel. It looks like things are the
same and it seems like houses
have not changed much nor
has the flunkies that built
them. My lawyer told me once
to remember this saying. Let
the Buyer Reware.

to remember this saying. Let the Buyer Beware. Well, I wish you luck and keep a stiff upper lip. I know how you feel and it feels like you have just been ripped off. But don't give up. All the best.

Even if all seems bleak, God always turns it into good for those who love Him: but that is another article in itself. What we may want to notice here is that God only allows what we can handle with His grace.

Even Job's affliction was limited by God when He told satan that He would not permit him to kill Job. I am convinced that there may be similiar conversations in Heaven concerning us. I am equally sure that God pulls the devil up short when He sees our shields weakening. Even in tempta-

## Former Madoc Township resident retiring from **Board of Education**

Cobourg - The man who helped lay the foundations for what is now the Northumberland and Newcastle Board of Education and who helped usher in a number of new educational programs is retiring. Hurrell (Bob) Moorcroft, the board's Chief Superintendent,

made the retirement announcement February 9 at the board's last regular meet-ing. His retirment will be effective June 30. Mr. Moorcroft, who started

Mr. Moorcroft, who started his career teaching in a one room school near Campbell-ford, rose swiftly up the educational ranks to become vice principal at the age of 23; a principal at Hillcrest Public School in Belleville at 25; and a superintendent in Darlington Township at 24. Township at 34.

He became Chief Superintendent for the board in 1985.

#### Regionalization of boards

A native of Madoc Township in Hastings County, Mr. Moor-croft was with the Darlington Board in the late sixties when Board in the late sixties when the provincial government announced its plan to abolish municipal and township boards and move to larger, regional boards. In 1968, he was appointed to the Interim School Organiza-tion Committee which planned the organization of the new board which was initially the Northumberland and Durham

board which was initially the Northumberland and Durham County Board and then the Northumberland and Newcastle Board of Education.

He lauded the province's move to bigger boards.

"It brought us a lot closer to equality in education," he said. "In fact, one of the first things I was involved with was help-

ing to bring in kindergarten throughout the area."

program."
"Under the old system, a kindergarten program, gener-ally, was only available in urban areas," Mr. Moorcroft

said.
Mr. Moorcroft recalls other advances made once the system's jurisdiction

expanded.
"We were one of the first
boards outside the metropolitan Toronto area and the Ottawa area to put in a French
Immersion program," he said.
"More recently, we'eve introduced junior kindergarten;
something which I feel very
proud about."
"I'm ontimistic that a child's

proud about."
"I'm optimistic that a child's progress will be much better because of it." he added.
His other responsibilities with the board have included Area Superintendent of the Western portion and, in 1973. Superintendent of Instruction with responsibility for curriculum and special education.

In successive reorganiza-tions, he became Superinten-dent of Program and in 1985, Chief Superintendent with overall responsibility for the day-to-day operation of the boards's nine secondary and 49 elementary schools.

#### Plenty of improvements

Among the improvements he has observed over his 38 year career in education, Mr. Morroft noted the "better training of elementary teachers in particular; the improvement in class sizes and the support services and resources available to teachers."

These "stick in my mind as hout the area." being drastic improvements over the last 30 years," he said.

He pointed out as well that, despite criticism, schools have never strayed from teaching the basics.

A descendant of Irish stock, r. Moorcroft was given an old family name, Hurrell, as his forename. His grandpa-rents emigrated from North-ern Ireland and settled in the

Madoc area in the 1850's.

Mr. Moorcroft was educated in the Township at Hart's School -- a one room school that is now the Women's Institute Hall.

"I attended a one room school and taught in one and, frankly, the good old days weren't that good in some respects," he said. "Classes were large and teachers weren't able to give students the individual attention they receive today."

"However, it was a family situation and I enjoyed my four years teaching in a one room school."

Commenting on Mr. Moor-croft's retirement. Director of Education, Gary Tushingham, said "I'm truly sorry he is leaving and he is going to be difficult to replace. He has made, and continues to make, estimificant contributions to significant contributions to

## Angler of the Year Award for 1988

Onturio's most prestigious angling title, Ontario Angler of the Year, has been awarded to anging title, official values of the Year, has been awarded to a 28-year-old angler from Peterborough by the Ontario Federation of Anglers and Hunters (OFAH).

Robert Curry Jr. was selected from all competitors in the "Molson Export" Big

Fish Contest as the angler who best exemplified the enjoy-ment and conservation of Ontario's fisheries in 1988. Curry won the Live Release Largemouth Bass class and had a total of 18 prize-winning entries in eight classes of the "Molson Export" Big Fish Contest.

"Although there were sever-

al anglers who had to receive al anglers who had to receive serious consideration for Ontario Angler of the Year, Curry's versatility and dedication to conservation made himstand out above the rest," said Rick Morgan. Executive Vice President of the OFAH.
"He catches a variety of fish

"He catches a variety of fish species, in different types of waters, using a smorgasbord of techniques and lures...and

99% of his fish are released alive to swim and spawn again. Only those accidentally harmed are kept for the family frying pan. There are an incredible number of excellent anglers in Ontario, but in 1988, Robert Curry was judged to be the best of the best."

Curry was taught to fish by his father while still a young-ster. Although his interest in

the sport waned while he was in his teens, Curry has entered the last six "Molson Export" Big Fish Contests and has placed in the prizes many times in those years.

Among his wins were first place in the 1984 Live Release Rainbow Trout class and top honors in the 1987 Live Release Lake Trout class. Curry is on the water about 180 days a year, including the winter months when he fishes from an

ice hut.

Curr; s top winning entry in the 1988 "Molson Export" Big Fish Contest was a 24" Largemouth Bass, caught and released in Chemong Lake, north of Peterborough in August He also placed second caught and in the Brown Trout class and third in both Smallmouth Bass Salmon in the Live

Release category.

As a member of the OFAH,
Curry's focus is on conserving Ontario's fisheries resources so angling opportunities in the province will always be first rate. One example of this is the work he did with the Ganaras-ka Sportsmen's Association on a Salmon spawning project. In addition to the title of

Ontario Angler of the Year, Curry received a 9.9 h.p. Evin-rude outboard motor provided by the Outboard Marine

Corporation. The Ontario Federation of The Ontario Federation of Anglers and Hunters is the largest sportsmen's organization in Canada and the largest conservation organization in Ontario. It is widely known for its programs to protect fisheries habitat in wetlands and along shorelines, its Reporta-Poacher campaign, its opposi-tion to gill net use in the commercial fishing industry, and it's public education programs.

## Religion and world peace

The message of each of the world's great religions has been peace. Each faith in its own way repeats the spiritual guidance that we should treat our neighbour as we ourselves would wish to be treated. While the various religious teachings around the world have been successful in achieving peace in communities and among other relatively small groups of people, it is clear that humanity as a whole, has been slow to apply this principle on a dobal scale.

To me this was always a large
part of the appeal of the female
of our species - the mystery,
the pride they took in themselves and the preservation of
their dignity. It seems that we
have all the miracles we need and as is starting to be seen we are now having to cope with the adverse reactions of some of these

Chemicals and their by-products are showing up everywhere in our water and air. Problems with the ozone layer, required to protect ourselves from the harmful rays of the sun. Maybe future generations will develop an

Fast and furious tillage, resulting in erosion and "killing" the land. Fast food, a boon to the chains, now fill our landfill sites quicker, so we can dig another and pollute more water supplies and thereby develop a chemical to alleviate this newest potential killer.

Do you ever get the feeling that the little animal on the treadmill may not be any

Be it farmer or whatever, we have to halt some of our deve-lopment and give consideration to cleaning up and sorting out what we have already created.

ever more aware of these things and most of them were created to benefit people. Only a few can be pointed at because they continue to look only at the financial gain. The time is coming when these people will be forced by law to discontinue their adverse and

selfish practices.

Beware, though, that you do not leave it simply to others to put the pressure on. We proved that very clearly at the Rich-mond landfill site, where the company was very reluctant to cover properly

After a public meeting, at which I represented Hastings County Federation of Agriculture, they decided to clean up heir act and the dumpsite. It is also very gratifying to see that they are also going to pay in court for this flouting of the regulations.

I sincerely believe that consideration should be given to the amends already made, but that it must serve as a notice to others and that this type of behaviour will not be tolerated.

Pesticide and spray containers are a real headache, but again, because of pressure, the chemical companies are being made more aware that they cannot continue to reap profit without absorbing some of the

responsibility for disposal. One company has come up with a soluble container that will eliminate completely the disposal problem.

ausposal problem.

Did you farmers read the article stating that no till may be adding to the pollution problem? It seems, according to the article, that rodents etc. tunnel under the sod and create ducts for the washing away of fertilizer and chemi-cals instead of being absorbed into the prepared seed bed. Seems a guy or girl can just

never win.

The saving grace is that we are Canadians and being such we will assume responsibility for our actions and take action to correct our errors

I found out the other day why Presbyterians are reluctant to sit in front pews. It seems somewhere back in our history that a young minister came to preach for the first time. Now in this particular congrega-tion, was an elderly lady who

did sit in the front pew because
of a hearing problem.
The young fellow vigorously
approached the pulpit with

the stagestruck young fellow
could remember, so he backed up and repeated the line.

#### Making sure time is on your side

Do you ever feel that there are just not enough hours in the day to get the important jobs done? You're far from alone, since most owners/managers are beleaguered by time constraints. It's estimated that about 50° of the available time for small business owners is taken up by the administrative tasks and daily mini-crises, leaving precious little time to focus on the bigger picture.

The keys to better time management are simple enough get organized and exercise more self-discipline. What's tough is actually following through with them: Most entrepreneurs are terribly disorganized. They procrastinate, shuffle papers, search, search for things: they have a whole potpourri of bad habits collected over a lifetime." Says Harold L.Taylor, President of Time Management Consultants, Inc. of Toronto.

For the past 15 years, Taylor has conducted in-house train-

For the past 15 years, Taylor has conducted in-house train-ing sessions for companies. nas conducted in-nouse training sessions for companies, and day-long seminars for business people on effective time management. His biggest challenge with entrepreneurs is to get them to relinquish control." Entrepreneurs tend to be perfectionists who have trouble delegating because they believe that noone can do the job better than themselves," says Taylor. "So, you have people working long hours each day, sometimes even putting in 18. hours, and then they wonder why they're inefficient."

To get ahead in the time.

To get ahead in the time chase. Taylor urges owner/mamagers to become more productive within the confines of a conventional nine-hour working day. "Utilize the early mornings fro priority projects." says Taylor. About 75 to 85% of the people I've met in business are early morning people - that's when they have peak energy levels. Don't procrastinate, do the harder tasks in the morning. If you're bogged down by the paper work, he suggests letting your mail accumulate, and then spend one half hour each day clearing up the correspondance, and making sure the daily filling is done as well. In addition, set aside, a so-called.

day clearing up the correspon-dance, and making sure the, daily filing is done as well. In addition, set aside a so-called 'quiet' hour, when you close your door, and work uninterrupted.

Despite initial costs, the new technology available for small business people could actually pay off in time and, down the road, dollar savings. For instance, the \$2.000 approx, cost for a cellular phone may seem daunting, but it can be a great efficiency booster, saving weeks of working time each year, says Taylor.

Above all, he insists, it's important to take a systematic approach to time management. You cannot develop self-

discipline overnight. Don't be impatient. Do one or two things at a time, until doing so becomes a habit.
